Comprehensive Plan Update:

Planner Dan Penrose of SCJ Alliance provided an overview of the intent for the Open House and stated that it is a requirement by the Department of Commerce as part of the Compressive Plan Update process. The council will need to formally adopt the updated plan by Ordinance once completed. A Participation Plan will need to be adopted through Resolution as well. Penrose provided a handout of the goals in the existing plan that will need to be reviewed. Discussion was held on potential changes that the council would like to see with the goals and also with the Capital Facilities element of the plan. Penrose reviewed the draft maps that he had prepared for the town with the councilmembers present. A few minor changes that may be needed regarding classification of existing land use areas were noted.
